

Ares S1 Stun Gun

Ares S1 is a non-lethal self-defense device, with basic functions of contact stun, cartridge deployment and LED lighting. With S1, you can stun a target at close range or at a distance. The maximum distance is 7 meters.

Stun at a Distance

Applied to control the target at a distance. Maximum range is 7 meters.

Stun at Close Range

Applied to attack the target at closed range, without loading a cartridge.

Safety Switch

The safety switch has two positions: one for lighting and the other for electric shock.

Laser Aiming

Designed with green laser light, which is clearer in the sun during daytime.

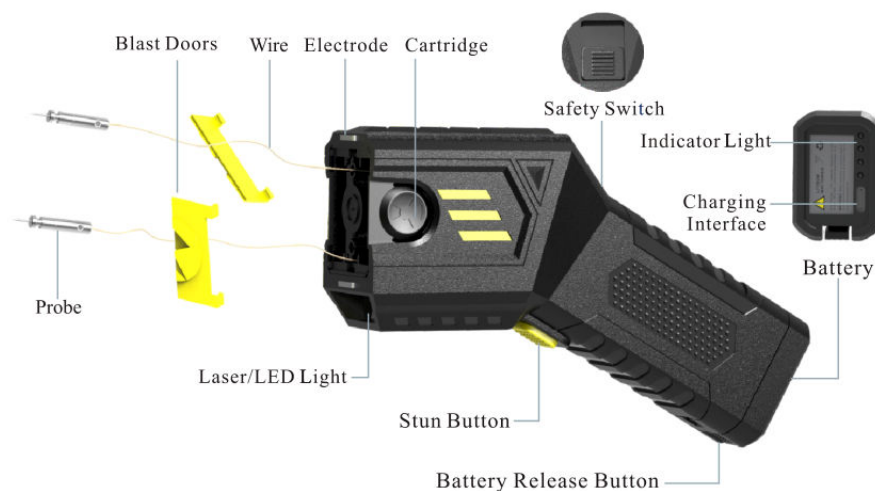

LED Lighting

Designed with LED lights, which greatly enhances user's vision at night.

Rechargeable

Apply for rechargeable battery, 600mAh.

Dimension	154mm*98mm*40mm (with battery and cartridges)
Weight	≤320g (with battery and cartridges)
Output Voltage	50±5KV
Output Current	<2mA
Pulse Frequency	19±2Hz (PPS)
Motive Force	High compressed gas(N2)
Maximum Range	7 meters (Best to use within 3-5meters)
Battery	7.4V, 600mAh
Operation Temperature	-20℃ ~ 50℃
LED Light	Max Output 50 lumen
